Roosevelt at Saratoga CHOLERA COVERS ALL EUROPE AT A RATE THAT IS APALLING

Italy, Austria-Hungary, Sicily, Russia and France Now Suffer—Is the Deadly Asiatic Kind—Hundreds Dying Every Day.

Naples, Sept. 28.—The epidemic of cholera here has attained the most alarming proportions, and energetic measures are being taken by the government health officials to combat the disease. More than a hundred cases were reported to the authorities yesterday. Fifty deaths occurred in the last twenty-four hours. The government, which up to the present has persistently declined to recognize the existence of cholera, has now admitted that the disease which has caused such havoc within the last two weeks is cholera of the virulent Asiatic type.

Rome, Italy, Sept. 27.—With the removal of the censorship starting details of the cholera epidemic at Naples are received. Several persons have died in the streets and the popular excitement is such that the police have great difficulty in keeping public order.

It is reported that one hundred thousand persons of the better class have already fled from Naples.

Budapest, Hungary, Sept. 27.—There have been twenty-eight cases of cholera and eleven deaths in Hungary, according to the official report, during the last forty-eight hours.

Odessa, Austria, Sept. 27.—An autopsy today established a case of pulmonary plague here.

Paris, France, Sept. 27.—A special despatch received here from Rome says that a suspected case of cholera has been discovered there.

Palermo, Sicily, Sept. 27.—There are three cases of suspected cholera here.

Laghorn, Italy, Sept. 27.—The death of a sailor here today is believed to have been due to cholera.

Turin, Italy, Sept. 27.—Two suspected cases of cholera are reported here.

order. It is reported that one hundred thousand persons of the better class have already fled from Naples.

Budapest, Hungary, Sept. 27.—There have been twenty-eight cases of cholera and eleven deaths in Hungary, according to the official report, during the last forty-eight hours.

Odessa, Austria, Sept. 27.—An autopsy today established a case of pulmonary plague here.

Paris, France, Sept. 27.—A special despatch received here from Rome says that a suspected case of cholera has been discovered there.

Palermo, Sicily, Sept. 27.—There are three cases of suspected cholera here.

Laghorn, Italy, Sept. 27.—The death of a sailor here today is believed to have been due to cholera.

Turin, Italy, Sept. 27.—Two suspected cases of cholera are reported here.

Cholera Sweeping All Europe

ADMINISTRATION OF TAFT APPROVED

Nevada Republican State Convention Endorsed Nearly All the "Taft Measures."

ROOSEVELT VICTORIOUS

Defeats the "Old Guard" at Saratoga for Temporary Chairmanship of N. Y. Convention.

Carson City, Nev., Sept. 28.—President Taft's administration and the so-called "Taft measures" passed by the last congress were endorsed today by the Republican state convention at Saratoga for temporary chairmanship of N. Y. Convention.

Col. Roosevelt was in his element. After he had named the members of three important committees and the convention had adjourned to meet tomorrow, the colonel turned and said to the newspaper men and remarked: "You may recall that I said 'frazzled,' you may quote me on that."

There were ten hundred and twelve votes cast today, of which Roosevelt received five hundred and seventy-six and Sherman four hundred and forty-five. In his speech as temporary chairman, Mr. Roosevelt spoke feelingly on what President Taft had accomplished in his administration, saying that the laws passed reflect high credit upon all who succeeded in putting them in their present shape.

The spectators and many of the delegates warmly applauded the declaration of Colonel Roosevelt for a direct primary plan. Col. Roosevelt assailed the "bosses," declaring that the difference between a boss and a leader is that a leader leads and a boss drives.

Thunders of applause greeted the colonel as he was escorted to the speaker's stand by Vice-President Sherman, and it was some time before he could proceed. Thanking the delegates for the honor that they had conferred on him, the colonel caused the greatest enthusiasm when he said: "You shall not have cause now or hereafter to regret what you have done."

Concord, New Hampshire, Sept. 27.—A platform constructed by progressive members of the party was adopted unanimously at the Republican state convention today.

Under the new primary law this was the only work which the convention had to do. The administration of President Taft was endorsed to the extent of a commendation of the Republican achievements of last congress under the leadership of President Taft in carrying out in such a large measure the policies inaugurated by Theodore Roosevelt.

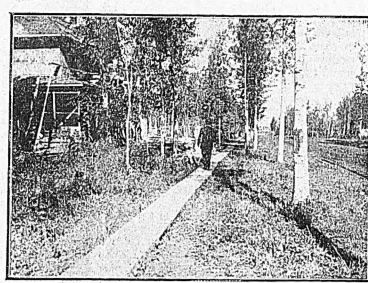

Franklin, Penna., Sept. 27.—Peter M. Speers, who has succeeded Joseph C. Sibley as representative nominee for congress for the twenty-eighth district, has filed a statement announcing that it cost him fifty dollars to obtain the nomination. Sibley is said to have spent upwards of \$2,000.

Boston, Sept. 27.—General William H. Oakes was nominated by the Republicans in the ninth district and former Alderman William Dudley Cotton defeated Police Commissioner Stephen O'Meara for the Republican nomination in the eleventh district.

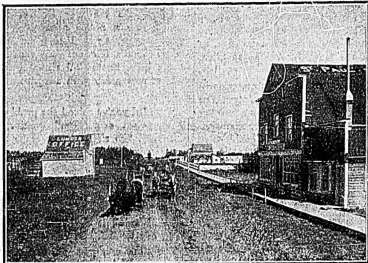

Convention Hall, Saratoga, Sept. 28.—Col. Roosevelt and his friends have selected Henry L. Stimson to be nominated for Governor.

Wise jewelry buyers make their purchases at Ash Bros.

A Street Scene in Dovercourt

Mr. Bouillon's Path Will Not Be Easy One

Says New York Herald in Telling of Edmonton—Inevitable Struggle Between Private Privilege and Public Interest

In the Sunday edition of the New York Herald of August 28th, there appeared a lengthy article on Edmonton, headed: "Edmonton, Alberta Metropolis. Solves the Problem of Municipal Ownership." The article is illustrated with two photographs, one depicting Jasper Avenue, and the other, the arrival of Sir Wilfrid Laurier on the occasion of his visit here last month. In the article reference is made to each of the city departments and to the ideal way in which they are managed in the interests of the public. The remarkable growth of Edmonton, from 2,652 in 1901 to a city of 25,000 in 1910 was noted at the outset and then the article went on to show the reasons for such a rapid advancement in population. The location of Edmonton and its beautiful surroundings came in for much favorable comment, and a short history of the city from the time it was a Hudson Bay outpost to the present time was given in a concise manner. The article concludes with a reference to City Commissioner Bouillon, giving a short biography of his career. One of the closing sentences is: "The indications are that Mr. Bouillon's path will not be an easy one. The inevitable struggle between private privilege and the public interest is in prospect."

Goderich Murder Mystery

CAN A LIQUIDATOR STILL LIQUIDATE?

No, This Is Not a Question of How Much a Person Can Drink.

A SUPREME COURT CASE

An Interesting Point is Being Argued Out in the Supreme Court.

When a company or person passes into liquidation do they retain the right to liquidate property held in trust or does that right pass to the second mortgagee?

That is the question the supreme court is called on to decide in the appeal of R. J. McCue from the order of Justice Harvey confirming the sale of the Alberta Hotel at Vermilion by the Western Canada Trading Co. through their liquidator.

R. J. McCue owed the Canadian Bank of Commerce \$5,700 and the Western Canada Trading Co. \$2,700 for which he gave mortgages to both. He afterwards under pressure passed his property to the Western Canada Trading Co. to be sold to cover the balance, the balance to be paid him.

The Trading Co. transferred it to the mortgage on the property to the Bank of Commerce to cover an \$8,000 indebtedness to that bank. Becoming insolvent, the company passed their assets to Mr. Smith at Edmonton, the liquidator, who applied to Judge Harvey for confirmation of sale.

The appeal is first on the grounds of the unreasonable lowness of the price; secondly that the property was passed on to the Western Canada Trading Co. and the conditions were not complied with. They were not privileged to pass the property to the bank as an asset of their own for the benefit of creditors.

The Trading Co. contended that his interests had been entirely overlooked, the company using it as their own property and Justice Beck admitted that the question was how far he should have an interest in the matter.

It was warmly discussed all the way through and was not finished when the court adjourned at 12:30.

GOOD BYE, I KILLED—WAS NOTE IN DIARY

But Does Not Say Who He Killed—Man Arrested On Suspicion.

THE GODERICH MURDER

Blood Stained Blanket and This Note Are Only Clues to Mystery.

London, Sept. 28.—Frank Horsey, who gives his address as Baltimore, Md., was arrested yesterday near Hyde Park by a county officer, on a charge of vagrancy and is held as a possible suspect in the murder of Lizzie Anderson, at Goderich. He carried a diary in which the following entry was found. "Good bye, dear, I killed—"

Goderich, Ont., Sept. 28.—Detective Gray is following the suggested clue of a blood stained blanket found in a local livery stable. It is suggested that it was left there by a Goderich resident at the request of a stranger the night of Lizzie Anderson's murder.

The report of the post mortem will be presented on October 5th. Little new light was thrown upon the circumstances surrounding the girl's disappearance by the members of the family who testified today.

EGGS! EGGS! EGGS! AIR FILLED WITH 'EM

And a Minstrel Troupe Wished They Had Never Gone to Lloydminster.

CONDUCTOR WAS CURIOUS

Went Out on Platform When Train Came in And Got One On the Nose.

Edmontonians, who were in Lloydminster on Monday evening, say the main street presented the appearance of a produce market after a runaway train had passed through. Iron fruit sprinkled the sidewalks, though that was not its original destination.

It appears that a minstrel troupe had been extensively advertised to appear in the "Oreary house" on Monday, and the citizens turned out in goodly numbers. The theatrical management seemed reluctant to raise the curtains so the audience grew impatient. Nine o'clock was only a memory when the performance finally started and was so vulgar that everybody left the hall.

But they did not go home. A hasty search of the nearby provision shops was made, and armed to the teeth with the product of a thousand hens, the home guard lined up outside the theatre. They did not have to wait long. When the talented performers left the safe precincts of the play house a mixed farming welcome was tendered. Little eggs, big eggs, laid eggs and good eggs, all make splendid missiles and leave a trade mark behind. By the time the minstrels reached the hotel they were plentifully bespattered, as was a Mounted Policeman who gallantly escorted the females of the troupe to safety.

The closing scene of the drama was rather ludicrous. Upon the arrival of the C. N. R. from Edmonton, the strolling players made a frantic dash for the cars, and the conductor, mounted onto the platform to meet the excitement was a large egg, hurled with deadly accuracy hit him square on the nose, and if a strong man was ever in agony, it was this man in the blue suit and brass buttons.

SCHOOL KIDDIES TRAIN FOR SPORTS

Every School Yard is Scene of Great Activity in All Lines of Athletics.

NOTES OF THE SCHOOLS

Last of Five New Rooms Was Opened Last Monday—Teachers' Club Entertain.

The last of five new rooms in connection with the Edmonton schools was opened on Monday in the Norwood extension.

Both rooms in the Norwood extension of Westmount school have been occupied.

The Teachers' club will entertain its friends for the first time this year in McKay Avenue school on Friday evening next.

Enthusiasm at school sports is quite strong. Practice in cross country runs already show time for juniors below that of the seniors of last year. The course is about the same as last year; it starts from Taylor school runs along Jasper Avenue to Kinnaird, up Kinnaird to Elm Avenue, along Elm Avenue to the Boulevard to Government Avenue and back to Taylor school. The cross country run takes place on Monday next at 4 p. m.

Every school yard at recess, morning noon, and night is a scene of athletic strife in jumping, running and vaulting. The team races are exciting a great deal of interest. Team competitions decide which school holds the banner for the time. Team events are as follows.

Relay race, team race, tug-of-war, basket ball.

This year the girls have a part in deciding team results in the results of the basketball games. A good schedule of games is now being played off. The schedule runs in two series and the winners in the series in both high and public schools play the final game before the grand stand in Diamond Park on the day of the sports.

The board are giving liberal support to the games this year as they consider it an important part of the year's work.

The school sports are not regarded simply as a holiday but as a public school department of the year's work in field athletics for the first six weeks of the term.

In addition to the Taylor-Secord runs in the junior and senior classes a medal will be given in the points competition for boys under eleven years. Medals will also be given for the junior and senior winner in the cross country run. As usual the committee have put on a provincial hundred yards dash open to pupils in the high school department of the province. Medals have been donated so far by Mr. P. E. Hatchett, chairman of the board, and Mr. St. Clair Blacket. Others are expected.

REV. DR. BARCLAY RESIGNS PULPIT

Montreal, Sept. 28.—The resignation of Rev. Dr. James Barclay, from the pastorate of St. Paul Presbyterian church was accepted with regret by the congregation last evening, and went into immediate effect. Rev. Dr. Fraser was appointed moderator of the session, and will declare the pastorate of the church vacant next Sunday. Dr. Barclay, who now becomes pastor Emeritus, will officiate at St. Paul until the end of October.

FIND GIRL GUILTY OF INFANTICIDE

Barrie Jury Returns Verdict of Murder Against Mary Dolan—Recommendation for Mercy.

Barrie, Ont., Sept. 28.—Guilty of murder, with a recommendation for mercy, was the verdict returned at the assizes here this afternoon at the conclusion of the trial of Mary Dolan, the young woman, who before Mr. Justice Britton and a jury, was charged with having killed her illegitimate child. The case was a remarkable one in many respects, not only because it involved a capital charge, not only against the mother of the child, but also against the man who is alleged to be the father, Thos. McNulty, a keeper of a pool room in Oshana and a married man with two children, of whom it was said he instigated Miss Dolan to commit the crime.

FEAR FOR SAFETY OF KENORA HUNTER

Charles Jones, C.P.R. Yard Foreman, Went Into Woods Week Ago—Not Seen Since.

Kenora, Ont., Sept. 28.—Grave fears are still entertained this morning for the safety of Charles Jones, foreman of the Canadian Pacific yards here, who with Stanley McKinnon, a week ago Tuesday night last, left for a hunting trip on the Lake of the Woods. They were to return last Friday and since then a search party has been actively searching Piche Bay with no further result than that the launch containing Jones' coat and provisions has been found, the latter untouched. Further news from the searchers is expected today.

TORPEDO BOATS SINK

London, Eng., Sept. 27.—German torpedo boats "G-7" and "G-6" were sunk today in the roadstead at Kiel, according to despatches to the Central News. Each boat carried a crew of 16, the fate of whom is unknown.

The Ball official standard watch, Jackson Bros.

POST OFFICE SAYS CITY'S RATE HIGH

Objects to Paying Twenty-Five Dollars a Year Per Man for Car Fare.

The Post Office Department is not satisfied with the terms the city commissioners are prepared to make with them for the carrying of post men on the street railway system. Some time ago the city decided to charge the department \$25 per letter-carrier per annum. The department through a local official this morning expressed their dissatisfaction and asked for more reasonable terms. Commissioner Bouillon replied that he could not see how the city could offer better terms at present, but promised that the matter would be given reconsideration.

STATED CASE OF AN ILLEGAL SALE

Case of Lloydminster Man Charged with Selling Liquor to Treaty Indian.

At the Lloydminster sittings of the district court held yesterday, the statement of Robert Nixon for the illegal sale of liquor, was considered by Judge Taylor.

On June 11th, Mr. Nixon was fined \$500 and costs, by William Sibbald, Indian agent at Lloydminster, for selling liquor to Bill Mayo, a treaty Indian, which is contrary to section 135 of the Indian Act.

In the evidence, the prosecutor claimed that Nixon had been warned of the presence in the town of Indians who were to be careful to whom he sold liquor. Also that he did not ask Mayo whether or not he (Mayo) was an Indian.

The defence argued that as R. W. Miller, J. P., sat on the bench at the time, Mr. Sibbald did not have authority to, alone, pass sentence. Furthermore, Mr. Nixon claimed that he had been told that Mayo was a half-breed and had not received the liquor as to the presence of Indians in town until after the liquor had been sold.

Judge Taylor, after hearing the arguments of E. L. Freeman for the prosecution and Mr. Lyle, for the defence, reserved his judgment.

ARRANGING FOR MOVING THE CROP

Winnipeg, Sept. 28.—In order to make final arrangements for the moving of crop to the Lake Headina General Manager Chamberlain, chief engineer Kellner, general superintendent Brewer and Chief Engineer Poulton, of District E, left yesterday over the C. N. R. for Superior Junction. Another matter to receive attention is the installing of telegraph operating along the line to connect Fort William with the Winnipeg offices.

NEW SCHOOL DISTRICT

Teachers are now being asked for a new two roomed school to be built on the "Highlands," the new subdivision in North Edmonton. This new school district which was yesterday approved by the Department of Education will be known as the "Edmonton Highlands School District." The school will be located in the north west part of the Highlands, about four blocks from the street car line. At a meeting held last night the following trustees were appointed: Dr. Hayworth, John Fraser, and J. Painter.

MUST BE PERFECT COOPERATION OF EAST AND WEST FOR UNITY

James McGeorge

Speeches Babbled Over With Enthusiasm Were Delivered at the Civic Reception to the Manufacturers Association Last Night

The separate school hall was filled to its capacity last night, when the members of the Canadian Manufacturers Association were received by the city and addresses made by Mayor Lee, Mr. McGeorge, J. K. Cornwall, and several members of the association. There were a large number of ladies present and the meeting which started at 8 p.m. was over shortly after 9:30 p.m.

Why let that headache spoil your day's work or pleasure? Take

A Great Farm Bargain

We have been instructed by one of our clients to sell the following choice property: 180 acres of splendid land, located exactly 10 miles from Edmonton Post Office; about 100 acres broken, good frame house worth \$2,000.00, frame and log outbuildings, in good condition, land mostly all fenced, about 250 acres of choice open land; balsam poplar and about 15 acres of Tamarac swamp. This all goes for \$6,500.00, on reasonable terms.

Note.—This is one of the best properties we have ever had to offer for this price, and this offer is good until October 1st only.

The Seton-Smith Co.
Phone 1611. 63 McDougall Avenue.

is the commissioner government, which system seems to have proved itself to be excellent, so excellent in fact that many other cities are asking for information."

The speaker then went on to describe the growth of the city saying that between nine and ten millions worth of buildings had been put up within the last four years.

He then touched on the subject of manufacturers for which he said this city was admirably adapted, cheap fuel being one of the necessities and it was certainly to be had.

Mr. McGeorge, president of the Edmonton Board of Trade, was the next speaker. He extended a warm welcome to all the ladies who, he said, must have made the trip from Toronto so much pleasanter for the men.

"You cannot realize what the west is like till you see it for yourselves," he said. "We, out here, are of the opinion that there must be perfect co-operation between the east and the west before the country will become really one." He then proceeded to give a number of statistics showing the growth of Edmonton and Alberta since the association was here four years ago, and concluding with a promise that the Board of Trade would do all that they could for any manufacturer who might start a business in Edmonton.

President Rowley returning thanks for the way in which the party had been entertained, said that the Association was not confined to Ontario, but that manufacturers from any part of Canada are admitted. "One of the best friends of the manufacturers is the farmer, who is often inclined to regard the manufacturer as an alien, and don't befriend us."

"If we come to Edmonton, we will want you consumers to protect us from the outsiders, who come into the country, take our produce, manufacture it outside the country and then ship it back in again. Protection is a shorter term for conservation which means that if you protect your natural resources you will find that you are bound to have manufacturers."

Speaking on the subject of factories he said that there were four things required, cheap sites, which he believed Edmonton to possess, good power and water, and cheap—or a number of young people willing to work."

"Speaking of education, now that Mr. McGeorge mentions it," he went on, "some people may disagree with me, but I think that there is such a thing as educating a boy or girl be-

yond his status. I don't believe that it is necessary for every boy and girl in the country to have a high school education. Some of the best business men that I know left school when they were 17 years old. Nowadays it is extremely difficult to get labor for the factories."

Mr. Wm. Olgy, the next speaker, said that every hour spent in this city would be rich in pleasant memories. The western hospitality had been boundless as the country.

"Go ahead build homes!" was Mr. Olgy's cry: "build homes, guard homes; a man's heart is in his work when he has a wife and child to look after. Then is the time he will take up arms and fight for his home. Whoever would shoulder a musket and fight for a boarding house? What ever else the country is producing it is producing men and women—the greatest product of all."

Three requisites he enumerated for manufacturing: Climate, power, labor, material, machinery and intelligence. The fiscal policy, he said, turning to tariff matters, "should be fixed. If the present system is satisfactory, why, keep it, but this changing from the one to the other is not going to do the country any good. Another thing we must do is to erect a barrier against the cheap labor of the old world, and further a great deal more important against the cheap labor from Asia."

"Now the motto of your city is, Industry, Energy, Enterprise." It is excellent. On the way in on the train I saw a notice advertising a firm whose name was Race, Hunt and Giddy. That's like up. We raced to get here, hunted all round town and are now giddy with surprise and pleasure.

"I'm glad you've solved the problem of municipal ownership," continued Mr. Olgy, "go right ahead, make all the improvements you can, don't get cold feet."

"In Vancouver I heard Mr. McBride conclude a speech with the words 'One Flag, one King, one Empire.' I think it ought to be 'One Flag, one School, one Language.'"

The time was now getting short, as the party had to catch the train which left at 10 o'clock, so that there was not much time for the address of J. K. Cornwall, M.P., on the Peace River country. He, however, gave a few of the general outlines of the country. 1,100,000 square miles of country comprises the Mackenzie watershed which begins 40 miles north

of Edmonton, he said, and 80 per cent. of this land is capable of cultivation. He gave a short account of the waterways of the country and mentioned the great need of a railway to the country.

The meeting then was closed, and the manufacturers, left for their train.

PUBLIC NOTICE IS HEREBY GIVEN that an application will be made at the next session of the Legislature of the Province of Alberta, for an Act to incorporate the Edmonton Interurban Railway, with power to lay out, construct and operate an electric railway between the following points in the Province of Alberta:

(a) From a point within or near the City of Edmonton to a point at or near St. Albert or Morinville, or both.

(b) From a point within or near the City of Edmonton or from a point on the last mentioned line to a point at or near Athabasca Landing.

(c) From a point within or near the City of Edmonton or the City of Strathcona or from a point on such last mentioned line to a point at or near Beaver Lake.

(d) From a point within or near the City of Edmonton or the City of Strathcona or from a point on such last mentioned line to a point at or near Waskia.

(e) From a point within or near the City of Edmonton or the City of Strathcona or from a point on such last mentioned line to a point at or near Lac Ste. Anne.

(f) From a point within or near the City of Edmonton or the City of Strathcona or from a point on such last mentioned line to a point at or near Pigeon Lake.

(g) From a point within or near the City of Edmonton or the City of Strathcona or from a point on such last mentioned line to a point at or near Lac Ste. Anne.

(h) From a point within or near the City of Edmonton or the City of Strathcona or from a point on such last mentioned line to a point at or near Lac Ste. Anne.

(i) From a point within or near the City of Edmonton or the City of Strathcona or from a point on such last mentioned line to a point at or near Fort Assiniboine on the Athabasca River.

(j) From any one of the said points to any other or others of said points, and may be carried upon and along such road allowance and public highways as may be convenient, and with power to acquire, construct, maintain and operate a connection therewith, trolley, power, telegraph and telephone lines, bridges, ferries, steam and water power plants, and such other enterprises, business or undertaking as may be conducive to any of the objects of the Company.

Dated at Edmonton this 15th day of September, 1910.

EDUCATING FACTORY HANDS

"Speaking of education, now that Mr. McGee mentions it," he went on, "some people may disagree with me, but I think that there is such a thing as educating a boy or girl beyond his status. I don't believe that it is necessary for every boy and girl in the country to have a high school education. Some of the best business men that I know left school when they were 17 years old. Nowadays it is extremely difficult to get labor for the factories."

Speaking on the subject of factories, he said that there were four things required: cheap sites, which he believed Edmonton to possess, good power and water, and "cheap"—a number of young people willing to work."

These two paragraphs are from the speech of Mr. W. H. Rowley, president of the Canadian Manufacturers' Association, delivered at the separate school hall last night.

Such statements coming from Mr. Rowley are startling. They smack very much of the medieval, the autocratic. In brief, the gentleman says: "I prefer not to have a certain number of boys educated, for if they are left comparatively ignorant, they will be cheap labor."

True—the ignorant youth is fit only for manual labor. He sells his physical force cheaply. His rate is far lower than the man of less strength who uses his brain. Therefore, we have the president of the Manufacturers' Association of Canada advocating the closing of the books of progress and civilization to a certain class of citizens—the laborers. This is tantamount to slavery, to the old medieval days of feudalism.

And although Mr. Rowley may preach this doctrine of his as often or as far as he pleases, thank God, his converts will be few. Canada wants to see all her sons educated. That is the reason we have free public schools with compulsory attendance, and cheap high schools. And technical schools are springing up all over the land.

Mr. Rowley will find it hard work to turn the hands of progress back a hundred years.

GIVING BOYS A CHANCE

When a boy reaches that crisis in his life when he quits school and begins to "do something"—although in attending school he was doing one of the most important things of his career—there is always much serious talk in his family as to what his duties are and what he is cut out for, says the Toronto Star.

There is nearly always one occupation, at least, denied him. The father of the family is generally regretful that no son of his shall ever be allowed to endure the hard work and earn only those small rewards that are obtainable in the calling in which he himself finds himself engaged. The clergyman will make his son an engineer and the engineer dreams of one day seeing his son in a pulpit. So the world goes around.

But is there not a great deal of needless worrying done by parents in a country like Canada about the aptitudes of their sons?

Lines are not drawn hard and fast in this country, and it is easy for a grown man to follow his aptitudes when they are fully developed. Very few of the men who have carried great success in business began as boys in the particular line in which they excelled later on. Each man has to find himself. It may be true enough that most men who have succeeded in business began in business of some sort—in some branch of the work of making money breed and multiply—but with most of them the time came when they saw off somewhere on the side an opportunity which had escaped other men's eyes.

Broadly speaking, we believe it to be generally true that the man who succeeds in any one line of effort would have been successful in almost any other line. We do not mean to say that the man who has made a fortune in real estate could have won

success as a painter of a singer, but that the qualities which made him a money-maker in buying and selling land would have made him a money-maker had he been buying and selling anything else. Had land not offered him his opportunity, something else would. It is pretty much up to the man himself. Is he a leader or a follower? Does he think for himself, or does he need instruction in all he does?

In a Toronto office there are two messenger boys. One of them always comes back with his errand done in a satisfactory way. The other nearly always comes back to report that the man he was sent to see was out of town, or that his office was closed, or that the man had moved away, or that the elevator in the building was not running and he would go back later. One has plenty of resourcefulness, the other none. One will inspire confidence in all who have dealings with him. The other will spend his life framing excuses and complaining of hard luck.

When a boy starts out in the world, success is about equidistant from him in whatever direction he may turn. Between him and it there is just about as much hard climbing in one direction as in another, and about the same necessity for grit, good-nature, and the well wishes of those whom he encounters on the way. If some seem to succumb without effort, do not trust appearances. If some men seem to have no hard luck it is because they never talk about it. Men who go around relating their woes often unbosom themselves to others who are in much worse case, but who find no relief in gabbling.

It does not seem to matter much where or how a boy starts. If he has the substance in him he will arrive; if not, no merit in the start will count for much at the finish.

What Others Say

CHINESE PIGTAILS TO GO.

(From the New York World.)
Before they were conquered by the Manchus the Chinese wore their hair in knots on the top of their heads. The long queue to which the Celestial millions have been accustomed for ages was forced upon them by their conquerors and it stood in the first instance for humiliation and submission. In course of time superstition grew up about the long braid. It became understood generally that the Chinese emigrant who cut off his queue while abroad forfeited by this act his chance to return to his own land.

Consistent with the general news of advancing ideas in the Empire of the Sun is the item stating that the sacrifice of the queue is now to be general in the Chinese Army and in official circles. There has been already on the occasion of the Festival of the Full Moon, a cutting off of distinguished pigtailed by Chinese merchants living in New York.

EXTENDING THE I.C.R.

(From the Halifax Echo.)
Mr. Blair had the right idea of the Intercolonial. He saw the futility of a railway with no roots of its own to draw independent sustenance from the productive sources of traffic. His extension of the road to Montreal was only a step in a process he had mapped out into which he eventually carry its rails across the prairies to the Pacific. Mr. Emmerson had the same large easiness of establishing permanently the Intercolonial's Maritime base of supplies, so he set himself to the task of building branch lines. The two schemes go together and both are necessary for the future existence of the Intercolonial as a separate institution.

The Intercolonial must grow or die. Unless it has secured, within the next few years, a permanent hold upon its Maritime feeders, and direct connection with traffic from Ontario and the West, it will find itself cut off from compete in its own territory with two both sources of supply and forced to rely on three transcontinental lines, into the hands of one of which, or of the three in combination—years far off—it will then inevitably fall. If the Government hopes and desires to retain the Intercolonial as a public owned railway, and to develop it as a useful instrument of public utility, the finger of business common-sense points plainly to the only way.

RELIGION AND FLAGS.

(From the Toronto Star.)
The Montreal City Council has adopted the report of the reception committee, censuring Mayor Guerin for discourtesy in connection with the display there at the Exhibition. Congress. The trouble seems to have been caused by giving the Irish flag the precedence over the French tricolor. Without going into the details of the dispute, it may be suggested that the trouble could have been avoided by simply displaying the flag of the coun-

Phone 1297

try in which the celebration occurred. But a dispute over flags in regard to a religious demonstration seems singularly out of place. The Exhibition Congress was intended to lay stress upon principles which Roman Catholics believe to be true in all countries and in all ages. From this point of view, it was a mistake to attempt to give a secular or political character to the procession. The presence of servants of the State in their official robes and uniforms has been objected to on political grounds, but it was equally objectionable on religious grounds.

A religion must stand by its own truth, and by its power of appeal to the human heart. The homage and obedience of all the nations in the world cannot add one iota to its real strength. It has nothing to gain by association with "the hoarse of heraldry, the pomp of power." It has much to lose by involving itself in national, racial, and political disputes. Take the Roman Catholic Church itself as an illustration. Its condition is most unhappy in those European countries in which it has been most closely associated with the political power. The aim of its friends should be, not to attempt to import the conditions of Europe into this continent, but to take full advantage of the new conditions, which enable it to divorce itself from politics.

CHINA'S FOREIGN IMPORTS

From the Toronto World.

China has at last responded to the constant pressure of western civilization and is moving ahead at a rate only comparable to that which marked the transformation of Japan. But the problem that confronts the Chinese government is vastly more a "how" and difficult than it was in the case of the inland empire. Three hundred millions of people cannot be handled as easily as a sixth of that number, especially when they have less homogeneity and for the most part are out of touch with the central government. Nevertheless the strong sense of racial loyalty which marks the Chinese will assist the efforts to turn the course of the nation's history.

The position in the far east is one of remarkable contrast, and is fraught with important consequences to western nations. Largely owing to the demonization of silver and its fall in value relative to gold, India, China and other eastern countries are rapidly developing industries that must at no remote date enter into immediate competition with western products. The growth of these native industries is strikingly reflected in an official report on the foreign trade of China, which recently reached the bureau of statistics of the United States department of commerce and labor.

The returns show large increases in imports into China from oriental countries, and from Russia, the only adjacent European country. Imports from India for 1909 increased by no less than 33 per cent. over 1908, those from French Indo-China by more than 100 per cent, from Japan 14 per cent., from Siam 50 per cent., from

Korea 39 per cent., and from Russia as a whole 28 per cent. On the other hand, of western countries only Germany, the Netherlands and Belgium showed slight increases. Imports from Great Britain declined by 16 per cent., from Italy 8½ per cent., from France 9 per cent., and from the United States 21 per cent. This, too, although the total imports increased from 299,554,553 taels (about \$38,000,000) in 1908 to 350,048,666 taels (about \$53,400,000) in 1909.

TO THE AUDIENCE

On October 6th and 7th Shakespeare's ideal comedy "Twelfth Night" will be presented here by Manager C. P. Walker's company of English players, including William Yale and Violet Eddy. This organization toured the West last season in "As You Like It," and made such an impression that their return in the new comedy is sure to be greeted by a crowded house. Mr. Yale is one of the leading Shakespearean comedians, while Miss Eddy has won many admirers by her charming portrayals of the immortal Shakespeare's dainty heroines. A massive scenic equipment has been provided for the comedy which will be staged in five acts and sixteen scenes.

AT THE EMPIRE.

Tonight is the last opportunity for seeing that charming play "Lena Rivers," as it is being presented at the Empire.

A change from the usual run of musical comedies. Miss Alice Kennedy and her company present a dramatization of Mary J. Holmes' book, "Lena Rivers." The play is a treat in its way and is fully appreciated by the crowds that attend. Alice Kennedy in the title role scores the hit of the evening. "The role of Lena Rivers, a young motherless girl untrammelled by the conventionalities of modern society, yet charming in her simplicity and loyalty to a new-found father gives Alice Kennedy ample scope to display her talents. In her dainty manner and charming exuberance of almost school girlish feeling Miss Kennedy somewhat resembles Marguerite Clark in "The Winning Ring."

Jack Westerman's impersonation of the spoiled son always after "a touch from the governor" is also very good, as is Emily Selwyn in the role of Granny Nichols.

MELBA AND THE STUDENTS.

In order to preserve for posterity the invaluable lesson of Melba's unprecedented and unequalled vocal triumph, the King has ordered the gramophone records of her voice to be stored in the British Museum. The French authorities have followed the same course and her records have been placed in airtight receptacles under the Paris grand opera house. In most of the world schools in England and the United States these records are now being used as a demonstration of perfect enunciation and vocalization and of the exquisite phrasing so peculiarly her own. Of this latter gift

Mr. Fuller Maitland, the distinguished critic of the Times, London, says: "The very soul of music lives in her phrasing."

A number of students from the principal colleges are going to a body to her forthcoming concert where they will have the additional opportunity of studying her remarkable breathing powers of which Anton Seidl said "Her science of taking breath is complete as it is unexcelled." The demand for seats at Harmony Hall continues very strong indeed.

AT THE LYCEUM

Mr. Thomas Beeson, who breaks the English language into small and comical pieces, will present his laughable burlesque entitled "Judge Gettin'." In this bill complications follow thick and fast, but in the end all is well again, as he tells a musical comedy. The gaily-gowned girls will be prominent in various big numbers in which the songs, dancing, and groupings will be of an elaborate character, and taken with the mixed comedy will furnish fun and merriment which will form a pleasant evening's entertainment.

Thomas Beeson will handle, as usual, the chief comedy part and as the Lyceum patrons are so familiar with his work, it is hardly necessary to mention him, but they will enjoy more than ever before his work in the clever musical comedy.

The rest of the company will be well bestowed in musical parts that will give a splendid chance to show off a great deal of ability.

The usual daily matinees will be given this week and on Thursday, there will be an entire change of programme.

Men's Suit and Overcoat Advice

1. You cannot fail to recognise the necessity of early ordering.
2. You mustn't pick a style from another, but look over the fashion books of a reliable man's tailor, hence you obtain a style befitting to your own person.
3. Selection of materials is difficult, unless the tailor's word can be relied upon.
4. Pick out a few tailors, look over their lines, their styles, and then place your order.

Now we are open for competition. We recognise the good it does all commercial enterprises, and it assists the men and young men in obtaining the highest efficiency in men's tailoring. Reliability, workmanship, exclusive patterns, styles of the best; we can offer the most reasonable prices and we solicit your inspection any time and we will prove our ability to merit your order.

DOVERCOURT

Inside the City Limits In the West End

Impressions, ideas and notions have been prevailing in the minds of Edmonton people for some considerable time, that it was utterly impossible to invest money in West End Real Estate unless they were compelled to consider a "Four Figure" sum at least.

Doubtless this is true of many sites and we are not disputing it, but we are prepared to emphasize one fact, namely: that our subdivision known as Dovercourt and including 160 lots in the West End of the city—within the city limits—is one of the cheapest, most desirable and finest West End propositions ever advanced before a speculating public eager for further evidence of the money-producing propensities of this city. Dovercourt is on sale today. We are ready to take you out to see the property at any time convenient in our automobiles.

Opportunities seldom crop up with such advantages accruing as are to be found in this offer we are extending to the public today. If any further information is needed we will be glad to furnish same upon personal application at the office or by phone.

\$150.00 per Lot

DOVERCOURT is situated on Alberta Avenue, west of the city limits, between streets running north and south from 34th to 42nd streets. It is the last subdivision within the city limits, thus affording the holder of a lot a city vote. Lots are all 50 feet by 108 feet to a 20 foot lane, giving access thereby to a double entrance and ensuring plenty of room for the owner to make use of. It is only one block and a half from the West End City Park, upon which a vast amount of improvements are to be made at the earliest convenience.

Our Terms

For the sale of DOVERCOURT have been made remarkably easy in order to reach all classes of pockets.

With a small payment down and a regular monthly instalment you can obtain an agreement. Thus:—

\$10 DOWN and \$10 Per MONTH

Can you beat it? If so let us know!

The street car extension running along Alberta Avenue will be ready within a short time, whilst the St. Albert line will be put into construction at once, which guarantees owners of a junction car line running north, south, east and west within a few months, adjacent to their property. Everything in improvements that can be effected will be put into operation quickly, so that the increase of the property value will be rapidly enhanced. Once more we ask: CAN YOU BEAT IT?

"The Highlands"

(The Land You Hear So Much About)

Our Opening Day

The eventful day that so many people have been waiting for is drawing very near and almost before you can realize it: SATURDAY, OCTOBER 1st, will be with us and we shall be selling these very desirable lots in "The Highlands." Last Sunday several people made a trip out to the property in the afternoon to inspect the values and be able to have a firm idea in their minds as to the truth of our remarks made daily in the Capital, that, nowhere in Edmonton was it possible to obtain such a lucrative investment offering so many advantages from an investor's point of view, both in a monetary consideration and a residential proposition. "The Highlands" is a sub-division situate on the river banks—higher than the city level—free from any objectionable city noises—it can be reached without danger of being killed by crossing railroads and there are no subways. Allow us to suggest that you make a very determined effort to invest in this desirable property—it will ensure you a select home—a splendid competence and a delightful rest from the rush in the city—a rest which is absolutely needful after a hard day's work, when you arrive home—surely you agree with us.

Streets are being graded--- 6 foot sidewalks are being laid down and all other improvements possible are being rushed ahead.

A Free Trip

Next Friday morning the 30th of September, we shall be ready to devote the entire day to taking the public down to "THE HIGHLANDS." We have chartered a special car from the street car company and will run to and from the property and 21st street all day. If you want a seat reserved on any trip ring us up for us to know when convenient and we will make the necessary arrangements as already numerous gentlemen have expressed a desire to avail themselves of the trip to this well known spot. Remember this ride will cost you nothing and will enable you to spend an interesting time in one of the most delightful spots in Edmonton. You need not necessarily be a purchaser or would-be purchaser of property to have this trip—it is free to all and we want you to see "THE HIGHLANDS" in all their beauty—it will really do you good; so come along with your best "friend" and see if you can locate some fine spot suitable for a high-class residence.

SPOKANE

A Automobile Ride

Immediately upon your arrival at "The Highlands" in our special street car, we shall have several automobiles ready to take you over the property in order to give you a great opportunity of fully ascertaining the many advantages to be obtained should you desire to invest some money in a good paying proposition.

Remember these automobile rides will not cost you a cent—you will not be importuned to purchase any lots—all we ask is a chance to show you the property and then let you shing for yourselves. Opportunities come to some men several times in their lives; others only get one; this is THE ONE for any body and everybody who cares to avail themselves of it.

We conclude with this wish: "That we may have the pleasure of taking you out on Friday next for a run at our expense; we will be delighted with your company."

Prices and Terms

Comparisons are sometimes odious, but they don't scare us.

The price of our lots is

\$9 per Front Foot

and the terms are: FOR SATURDAY ONLY, ONE-QUARTER CASH AND THE BALANCE IN EQUAL PAYMENTS OVER 3 YEARS.

AFTER THAT DATE: ONE-THIRD CASH AND THE BALANCE SPREAD OVER 3 YEARS. IS IT NOT WORTH YOUR CONSIDERATION?

If you compare these terms and the price with other offers on the market we believe you will be convinced of this fact, that "THE HIGHLANDS" IS THE CHEAPEST, SAFEST, MOST DESIRABLE AND MOST REMUNERATIVE ON THE MARKET.

Property on the north of Jasper Avenue, running west, is now \$30 and \$40 per foot, whilst the south of Jasper is demanding \$45 to \$80 per foot. It is worth it when you can secure such value on the banks of the river? DO THINK IT OVER.

"THE HIGHLANDS" is the last word in high-class Real Estate—will you pass it over without even considering it?
